

Ahmad Luthfi Hanif

Full Stack Developer

Jakarta, Indonesia | +6281377608950 | ahluthfiha2412@gmail.com | [LinkedIn](#) | [Github](#) | Portfolio

SUMMARY

A full-stack web developer with a long-standing obsession with video games — particularly the fan sites and wikis that make gaming communities thrive, like Prydwen, Game8, GameWith, and Huroka. That passion led me to build Skirk Portal, a Genshin Impact team builder inspired by those very sites. Completed Hacktiv8's intensive bootcamp where I built everything from social media apps to real-time multiplayer tools and AI-integrated web apps. I gravitate toward backend work but am comfortable across the full stack. Originally from Bandar Lampung, currently in Jakarta, willing to relocate anywhere the right opportunity takes me.

EDUCATION

Hacktiv8

Full Stack JavaScript Immersive Program — Honors ([Transcript](#))

Jakarta, Indonesia

February 2026 – May 2026

Sepuluh Nopember Institute of Technology

Bachelor of Informatics Engineering (GPA 3.41/4.00)

Surabaya, Indonesia

2019 – 2025

SKILLS

Language: JavaScript, TypeScript

Front End: React, Redux Toolkit, Next.js, React Native, HTML & CSS, Tailwind CSS, DaisyUI, Bootstrap, Apollo Client

Back End: Node.js, Express.js, PostgreSQL, Sequelize, MongoDB, Redis, Socket.io, GraphQL, Apollo Server, REST API, JWT, Gemini AI

Tools & Others: Git, GitHub, Postman, Jest, Vite, AWS EC2, Vercel, Railway, Supabase, Expo, Google OAuth, Firebase, Cloudinary

PROJECTS

[Impression](#) - Professional Profile Rating Platform

May 2026

A full-stack professional profile rating platform featuring anonymous peer ratings across three segments (social, recruiter, same-field), a quota economy system, and community leaderboard. Gemini AI generates role-specific evaluation criteria per target job and produces a personalized competitiveness score with written CV insights.

Tech stack: Express.js, PostgreSQL, Sequelize, Next.js, TypeScript, Tailwind CSS, Gemini AI, Cloudinary, JWT, AWS EC2, Vercel

[Skirk Portal](#) - Genshin Impact Team Builder & Wiki

April 2026

A full-stack Genshin Impact team builder and wiki featuring character search, team composition tools, and damage analysis. Gemini AI analyzes team synergy and generates strategic recommendations based on selected characters and playstyle.

Tech stack: React, Vite, Express.js, PostgreSQL, Sequelize, Redux Toolkit, Tailwind CSS, DaisyUI, Gemini AI, Google OAuth, JWT, Railway, Vercel

[Kakera!](#) - Anime Hobby Shop

May 2026

A full-stack anime merchandise e-commerce app with product listing, search, infinite scroll, wishlist with MongoDB aggregation pipeline, and JWT-authenticated user sessions. Deployed on Vercel with Next.js App Router and server-side data fetching.

Tech stack: Next.js, TypeScript, MongoDB, Tailwind CSS, Zod, JWT, Vercel

Strings - Social Media Mobile App

May 2026

A full-stack mobile social media app featuring posts, comments, likes, follows, and user search. Built with GraphQL for efficient data fetching, Redis for caching, and deployed to AWS EC2 with React Native Expo on the client.

Tech stack: React Native, Expo, Apollo Client, GraphQL, Apollo Server, MongoDB, Redis, JWT, AWS EC2

HackaType - Real-time Typing Competition

April 2026

A real-time multiplayer typing race app where users compete head-to-head with live progress tracking via Socket.io. Gemini AI generates dynamic typing prompts to keep each race unique.

Tech stack: React, Vite, Express.js, PostgreSQL, Sequelize, Socket.io, Tailwind CSS, DaisyUI, Gemini AI, JWT, Firebase

Fesnuk - Social Media App

March 2026

A full-featured social media web app supporting posts, likes, comments, follows, and file uploads, built as a pair project using server-side rendering with EJS and session-based authentication.

Tech stack: Express.js, PostgreSQL, Sequelize, EJS, Bootstrap 5, Multer, express-session
